

**PICKET**

**HORIZONTAL SLATS**

Want the traditional look of timber but don't want the regular painting and maintenance woes? Then the steel picket fencing is for you! Manufactured from galvabond steel or aluminium and powdercoated in our wide range of colours. It is perfect for front gardens and sliding gates and especially suited to cricket ovals.

Want that different look for the front of your home? Have a look at the modern horizontal slat design. It is perfect for between brick piers and a matching sliding or double gate will give your home a new modern feel. Manufactured from galvabond steel or Aluminium and powdercoated in our wide range of colours.

Wash with warm, soapy water every six months to help maintain the look.

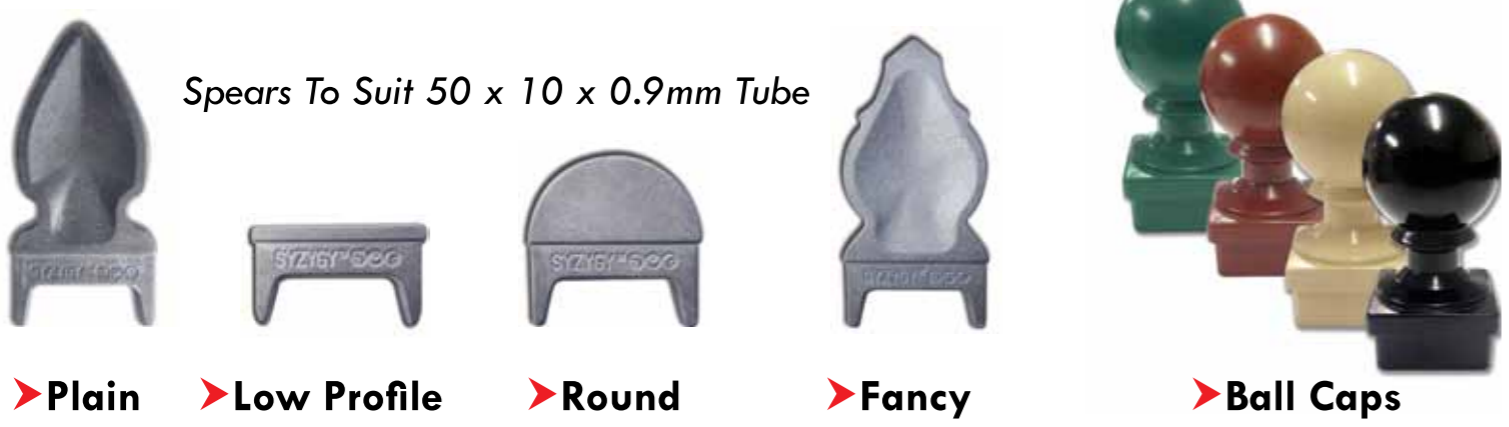

Wash with warm, soapy water every six months to help maintain the look.
