# Ozzybound Steel Privacy

Ozzybound® Steel Privacy Fencing is manufactured from Colorbond® steel, made tough by BlueScope, one of Australia's largest steel suppliers. Made here in Australia from start to finish using an advanced 4-step process to ensure it can withstand Australian outdoor conditions, it is backed by a 10 year manufacturer's warranty.

Stylish and durable boundary fencing, Ozzybound® is available in two profiles - Standard and the neighbour friendly Gatorline®, with matching posts and rails to suit. Available in 21 designer colours to choose from the Ozzybound® range will complement any home décor.

This versatile product also features Lattice, Louver Line® or Slats infills and Ozzybound® post caps to complement your finished look.

Need a gate? Made to measure Ozzybound® single and double gates are also available to complete your fencing project.

# Ozzylink Chainwire

Chainwire fencing has many applications and is a cheaper alternative to traditional security fencing. Available in galvanised or a black plastic pvc coating or the standard galvanized finish chain-wire has an attractive and functional finish.

For extra security we offer the ability to add security wire above our complete range and sizing of chainwire fencing to give your home and business the peace of mind you're looking for.

Commonly used to enclose factories and larger commercial land holdings it can also be used for tennis courts, cricket nets, animal and fruit tree enclosures. The many applications of chainwire fencing add to it's versatility and it's cost effectiveness makes it an attractive alternative.

For all enquiries or more information on how we can help you find the right solution for your compound or property contact our sales team today.

# Ozzyslat Fencing

Ozzyslat is Fencing & Gate Centres modern approach to providing privacy and style to your home or property. Utilising spacings of 10mm, 25mm or 50mm giving you the freedom to customise the look and feel you're after.

As a part of the selection process with the Ozzyslat range we offer the ability to tailor the solution to your preferred requirement. We have selections of slat sizing starting at our minimal size of 50 x 10 increasing to our mid range size 65 x 16 to our largest offering of 75 x 16 for maximum coverage.

Constructed using the highest standard of steel or aluminium giving you the option to choose your look and feel for all purposes. Using the extensive range of colorbond colors, all jobs are manufactured and powdercoated in house to the highest of Australian standards, backed by our 10 year guarantee.

We also offer the ability to have your standard or sliding gates made using our Ozzyslat system to give your property the same look the whole way round.

# Cantilever Gates

Our cantilever gates are completely custom made to suit any size required for your business. Manufactured and made in Australia to meet Australian standards to withstand Australia's harshest conditions.

Suited to avoid the use of track systems which can become damaged over long periods of time. Our cantilever gates are supported from a rail system that runs along the inside of the fence structure. This is where the name cantilever comes from – cantilever means hangs over the gate opening. Suited to commercial and domestic projects. Cantilever sliding gates are generally quieter than standard sliding gates as their wheels don't come in contact with the ground when operating.

They are best suited for applications where you have an uneven ground, going over obstacles such as paving, grass, gravel & even water. Cantilever gates have a longer operational life due to less friction when being used and the way we manufacture and fabricate them. As they don't require a ground track, they aren't restricted by weather or obstructions on the ground.

# Sliding Gates

Here at Fencing & Gate Centre, we pride ourselves on being able to supply our full range of styles to suit your sliding gate needs, whether its tubular, security, colorbond, Ozzyslat or Louvre Line.

We source the best materials to ensure the highest quality of product for your home or business.

Whether you're after a manual or automatic sliding gate, we have a wide range of styles and colorbond colours we can offer. We've partnered with other Australian companies who use the highest standard of gate automation systems available in the market.

If you're looking for a sliding gate for your next project, get in touch with our dedicated sales staff to go over all options and take out the guess work, making your decision on who you can trust easier.

# Custom Gates

If you have a weird and wonderful space you need filled with a gate to secure your home or business, Fencing and Gate Centre can help you design, build and install any custom sized gate.

Whether it's a standard opening gate or something you've never quite seen before but have a vision of how it would work, our dedicated staff can help you design the concept, using steel or aluminium material ready to manufacture to make your vision a reality.

Using all available styles in our range and more, we offer a wide range of designs and colour selection to ensure we are delivering the highest quality of standards with all our gates.

For any queries please contact us today.

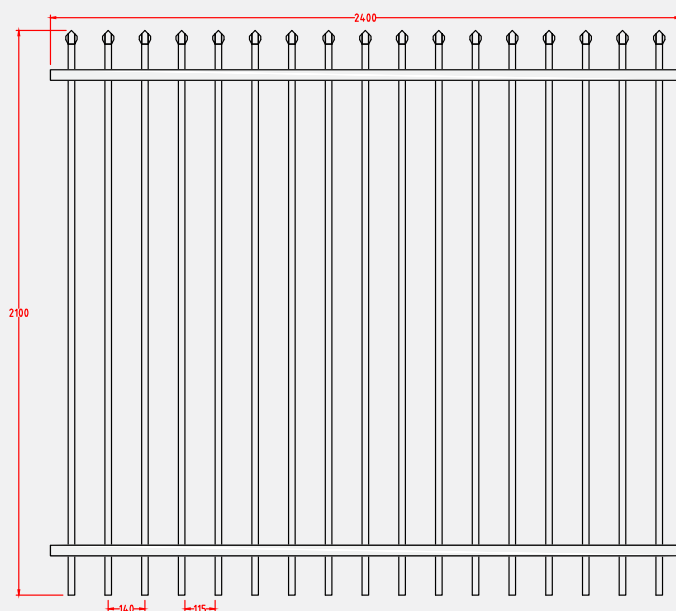

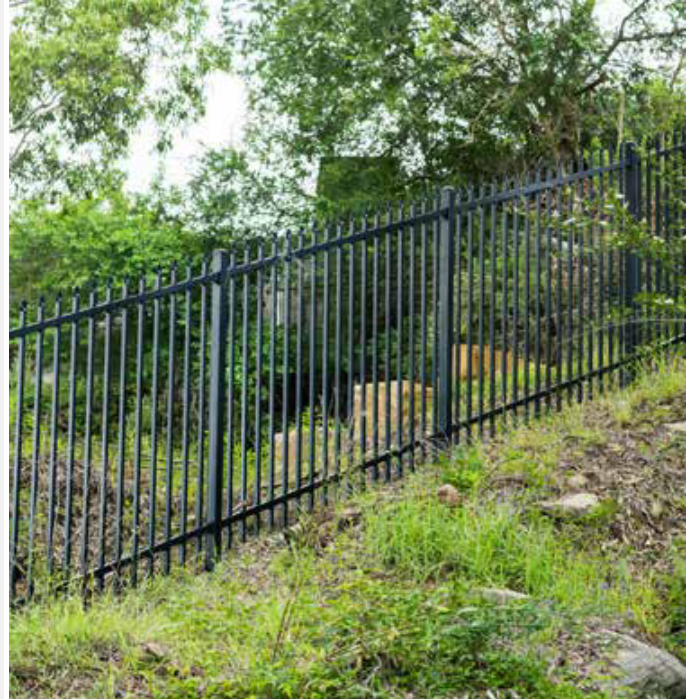

# Diplomat™ Security Fencing

Diplomat™ security fencing is the latest offering of complete security for your home or business.

We have various styles that we can manufacture to architectural specifications. We also do custom designs to suit government, commercial, industrial or domestic boundary fencing.

Manufactured in Pre-Galvanised steel or Aluminium, then powder coated in the high-quality Dulux colours with the option of Duracoat – making it available for saltwater environments. This product has all the characteristics required to keep intruders out.

Secure your home or building now!

# Louvre Line

Along with Fencing and Gates Horizontal Slat design, we produce a product called Louvre Line. This product is designed to add extra security and privacy to the areas you choose to screen off. Unlike timber screens, Galvabond steel or Aluminium, slats won't rot, warp or require constant painting and maintenance, making it a long term and very cost effective solution.

*Products can be utilised in the following ways:*

## ***House and Gates Security***

Secure your home and entry with matching sliding or double gate.

## ***Brick Infills***

Perfect for completing the modern façade style.

## ***Privacy or Feature Screens***

On patios, balconies and carports. Adding that extra security or creating a modern feature in your entertaining area.

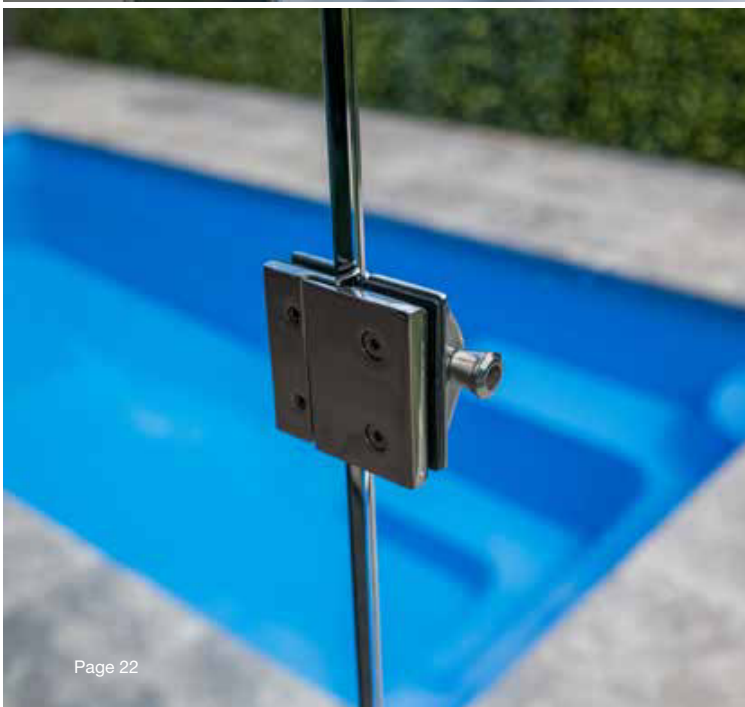

## ***Utility Screens***

Cover up unsightly areas like the wheelie bins, gas bottles, air conditioning units, pool pumps and water tanks etc.

## ***Sun Screens***

Custom window screens for privacy and sun protection while still letting in the breeze. Ideal for area troubled by that morning or afternoon sun.

# Glass Fencing

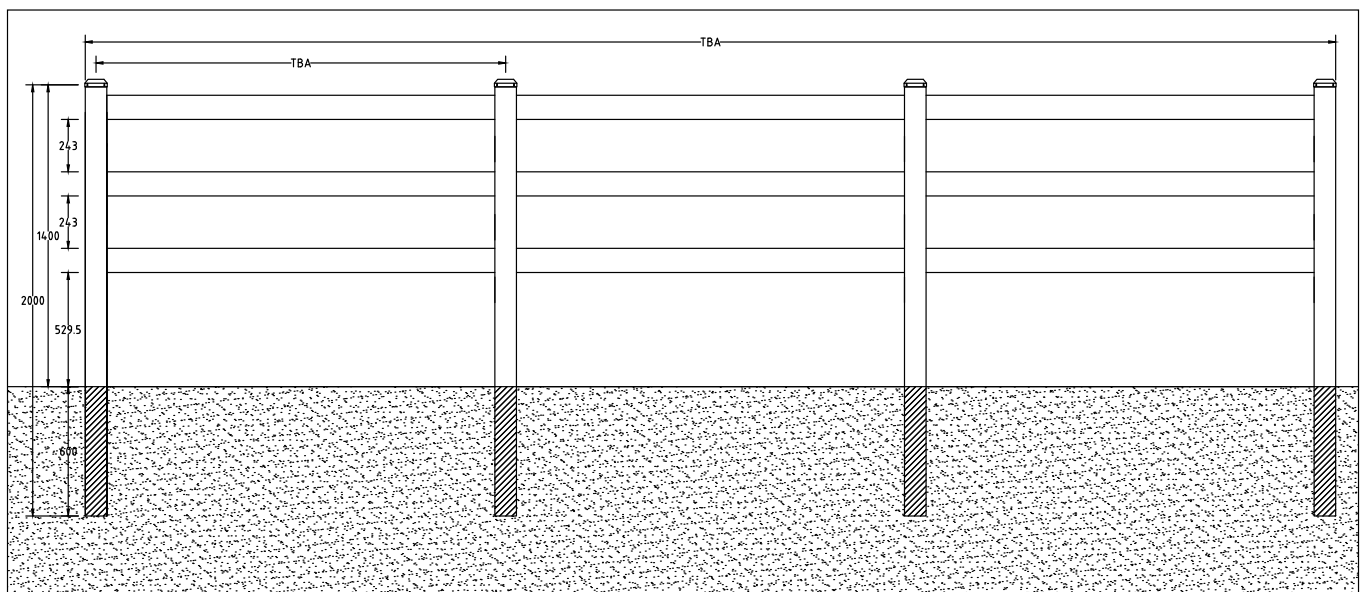

Our stylish 12mm toughened glass with flat polished edges and tipped corners in both frameless and semi-frameless combine's luxury and beauty with design and safety in a modular system that has been designed to meet all Australian Standards.

This frameless glass pool fencing gives you a sophisticated and elegant feel which transforms your pool area into a safe, stylish designed outdoor living space.

With a glass pool fence, you can be reassured you can see everything that's going on and also have a low maintenance fence for the future.

# Country Post & Rail

Country Post & Rail's steel fencing was designed with foresight of giving the customer the classic rural feel without the worry of termites and maintenance.

Normally constructed from Timber we've modernised this classic Australian look, made from galvabond steel and powdercoated with 25 colours to choose.

With the strength to hold animals including horses and cattle this product looks sensational and will not fade or deteriorate.

This product comes ready to assemble, with no welding, it's easy to install, with it being a slide of the rail into place and tightening of a tek screw. The perfect DIY solution to any property.

By adding chainwire to your Country Post & Rail system it will help keep your animals in or the pests out.

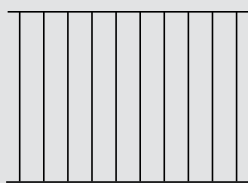

**End Post**      **Mid Post**      **3m Rail**

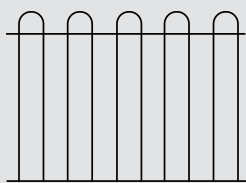

- Rail easily slides into posts
- 50mm metal tek screw to support rail
- Laser cut holes in each post
- No welding
- Ready to assemble
- Available in a variety of colours

# Tubular Fencing

We have a HUGE range of styles that will enhance your property and being the manufacturer we can produce your custom design to any regulation.

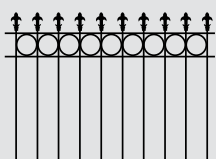

Not only is this product strong steel constructed but it is also elegant which will enhance the look of your home and make it the most distinctive in the neighbourhood. We make gates to complement your fencing needs. For ease of operation we can automate your gates to either swing or slide.

*This product is best used in the following ways;*

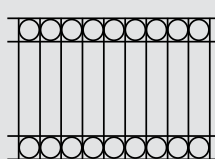

- Garden Fencing
- Balustrade
- Boundary Fencing
- Brick Pier Infills
- Security Barricades / Barriers
- Decorative Fencing
- Pools
