Installed &
Family Owned
since **95**

Capability Statement

Trusted & Experienced in Fencing

When you're looking for the complete fencing solution to your commercial, or residential project. Fencing & Gate Centre has over 20 years of experience in manufacturing, installing and providing Australian made fences and gates. Sourcing only the highest quality of raw materials, manufacturing and powder coating our materials to Australian Standards

Our Growing Fleet And Capabilities

We have state of the art and industry leading machinery to ensure that we are the market leader in innovation and design. With in house draftsman using CAD to draw, design and concept various custom designs. Our CNC router machine is utilised for all custom screens, while our Laser machine is used for being able to deliver any custom spacing on fencing and gates - whether its steel or aluminium.

What We Do

We've been around a long time, since 1995 to be exact! Family owned and Australian owned, backed by ISO certification in Quality, Safety & Environmental procedures. We are process driven!! Whether it's a small residential sliding gate or a 25m cantilever sliding gate, we follow a strict set of internal procedures to offer an engineered solution.

Barb Wire For
Added Security

Black PVC Chainwire.
Most commonly used for Permanent
security or Semi permanent security
Solutions.

Why Choose Us?

Solution Based

With the largest range of fencing and the market leader. We work with you to provide a solution to ensure your project goal is met and expectations exceeded.

Licensed & Insured

We don't cut corners! Our team is licensed, insured and experienced. Everything we do is done by the book and stands out from our competitors.

Support & Backing

Whether your dealing with a commercial sales representative or an internal sales administrator. Our team is well trained in all types of fencing, gates and automation. You can be assured that pride ourselves on customer service and experience.

Transparency & Honest

Our pricing, rates and billing process is detailed and straightforward. We take pride in being a market leader, but even more so – we take pride in being competitive with our pricing!

Certification

We are backed by certification in Quality 9001:2015, Health & Safety 45001: 2018, Environmental 14001:2015 . Which meet JAS ANZ requirements which further back our high standards of manufacturing and installation.

Up-to Date

All our jobs are tracked internally with real time up-to date scanning. Whether your job is in cutting, welding or powdercoating you can follow and stay in the know. Not only is a job scanned, every stage of the job is checked by the next area, to ensure it passes a QC check.

Delivery

We like being in control of everything that we do, that's why we use our own internal dispatch and delivery team to make sure all our fences and gates are delivered by us!

Tailored Solutions To Meet Your Project.

We are more than just your typical fencing company. We've worked with the largest builders across the country in delivering solutions that are tailored to suit bespoke and unique projects. We can handle any project scope, including standard security industrial fit outs. Whether your project requires steel or aluminium! We can build it, fit it and guarantee it!

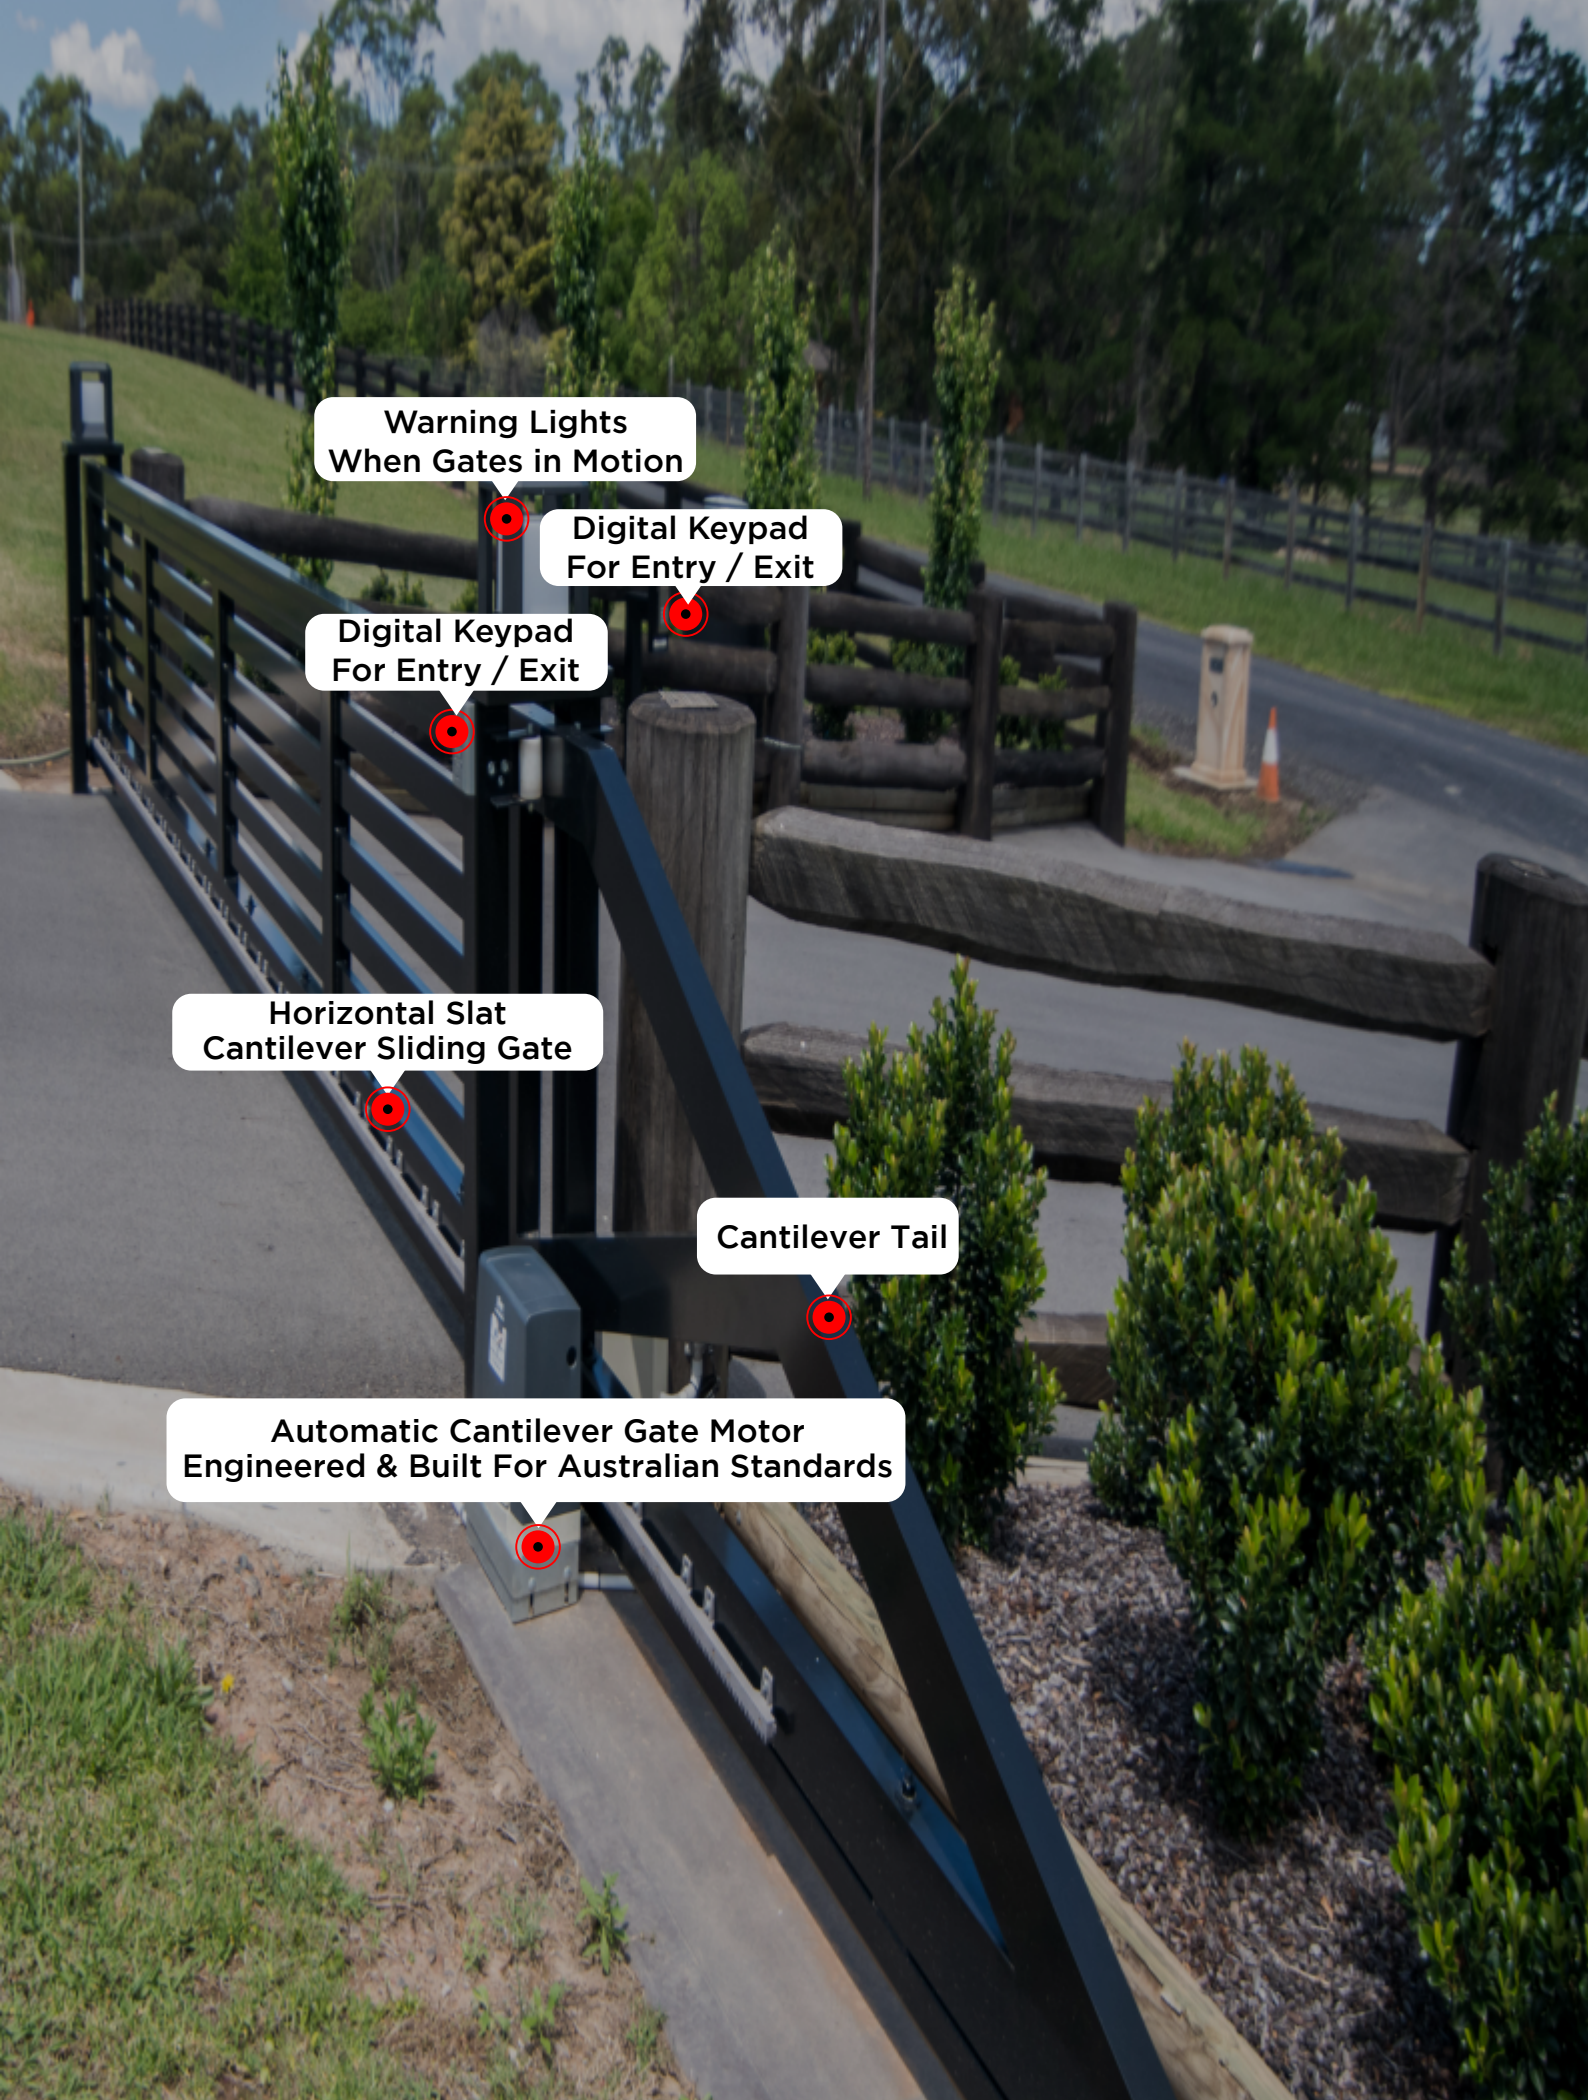

Made To Fit

Whether your project is next to the ocean, or in the outback. We can supply or supply and install a range of fencing and gates to meet your needs. Since we are the manufacturer we have the ability to make panels and gates to suit any application whether its on flat land or going down a hill.

Partners in Business

- We partner with only the best, using materials sourced from major Australian steel and aluminium suppliers.
- One of the only Australian Fencing companies still using genuine colorbond steel in all our boundary fencing. Backed by a 10 year warranty!
- Automation? No worries, we can automate it for you – working along side our automation partners, we use only the highest grade of Italian motors built to last, built to handle the harsh Australian conditions.
- We utilize the highest quality of fittings, hinges and latches. All sourced locally all backed with support right in Australia.

115mm Spacing
available in 100mm / 90mm spacing for department of education specification requirements

40x40 Rails

40x40 Rails

Deadlines & Quality

We take pride in the fact we are a premium supplier of Australian made fencing and gates. We've worked with and for the largest builders in Australia and that's backed by our quality policies and procedures - certified by JAS-ANZ!

Our Most Recent Work Includes

Moriah College – One of Australia's largest Jewish education precincts security upgrade. Including 3m high security fences with thicker base materials on perimeter fencing to reduce the risk of intruders or potential terrorist attacks.

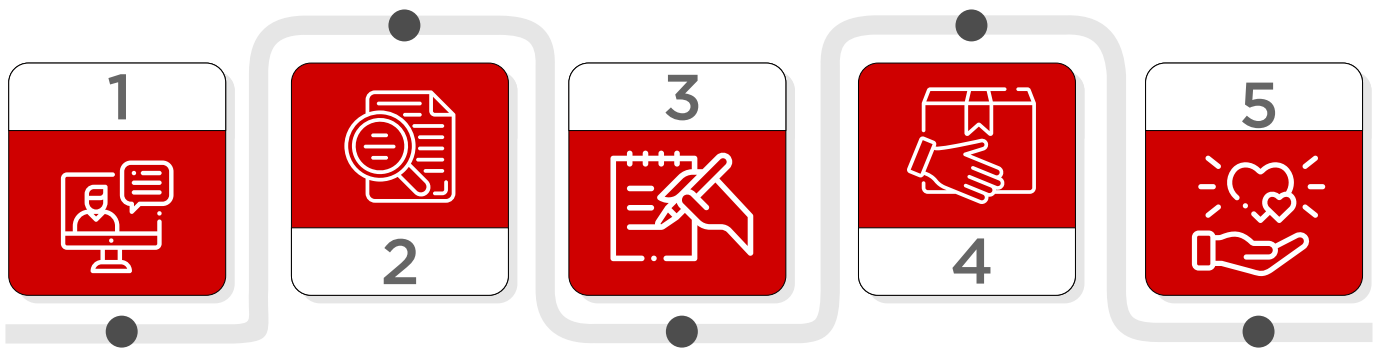

Orrcon Steel Marsden Park – As one of our key suppliers we recently completed the fit out of Orrcon's newest commercial site at Marsden Park. Perimeter security fencing with automatic sliding gates.

M-Metro North West Line – Chainwire perimeter fencing and security fencing in low lying grounds to ensure no access was available from the public

Allam Homes / Kaplan Homes – We supply and install all residential turn key solutions for Allam homes including Colorbond, Horizontal Slat & Louvre Gates

Woolworths D.C – Removal of existing and poorly installed chainwire. Supplied and installed new chainwire and diplomat security fencing. Installed diplomat security gates.

Process Map

Quote Request / Tender Request

One of our internal sales administrators receives your requests and gathers as much information as possible relating to your site & project. From there, they will organise one of our external sales team members to do a site inspection.

Site Inspection

One of our qualified staff will undertake a site visit with the leading project manager or by themselves if applicable. Once they map out the site, they will work along side you to get an understanding of the type of fencing, screening or gate you require for the site.

Order

Once a Purchase Order has been provided and the required deposit paid (for non account based customers). All materials will be ordered for manufacturing, throughout the process you can touch base with your external or internal sales team for regular updates.

Delivery & Install

Once the materials have been manufactured and have passed our Q.C process, our team will be in contact to organise an install date and time that suits. We understand all your projects are time critical, that's why we ensure we communicate up-to date lead times throughout the whole process.

Handover

Once the project has been completed, our external sales team member will do a site walk through and explain any thing required in relation to maintenance or operation of gates and motors. If you have any issues in the future, you can contact us directly on (02) 9625 4244

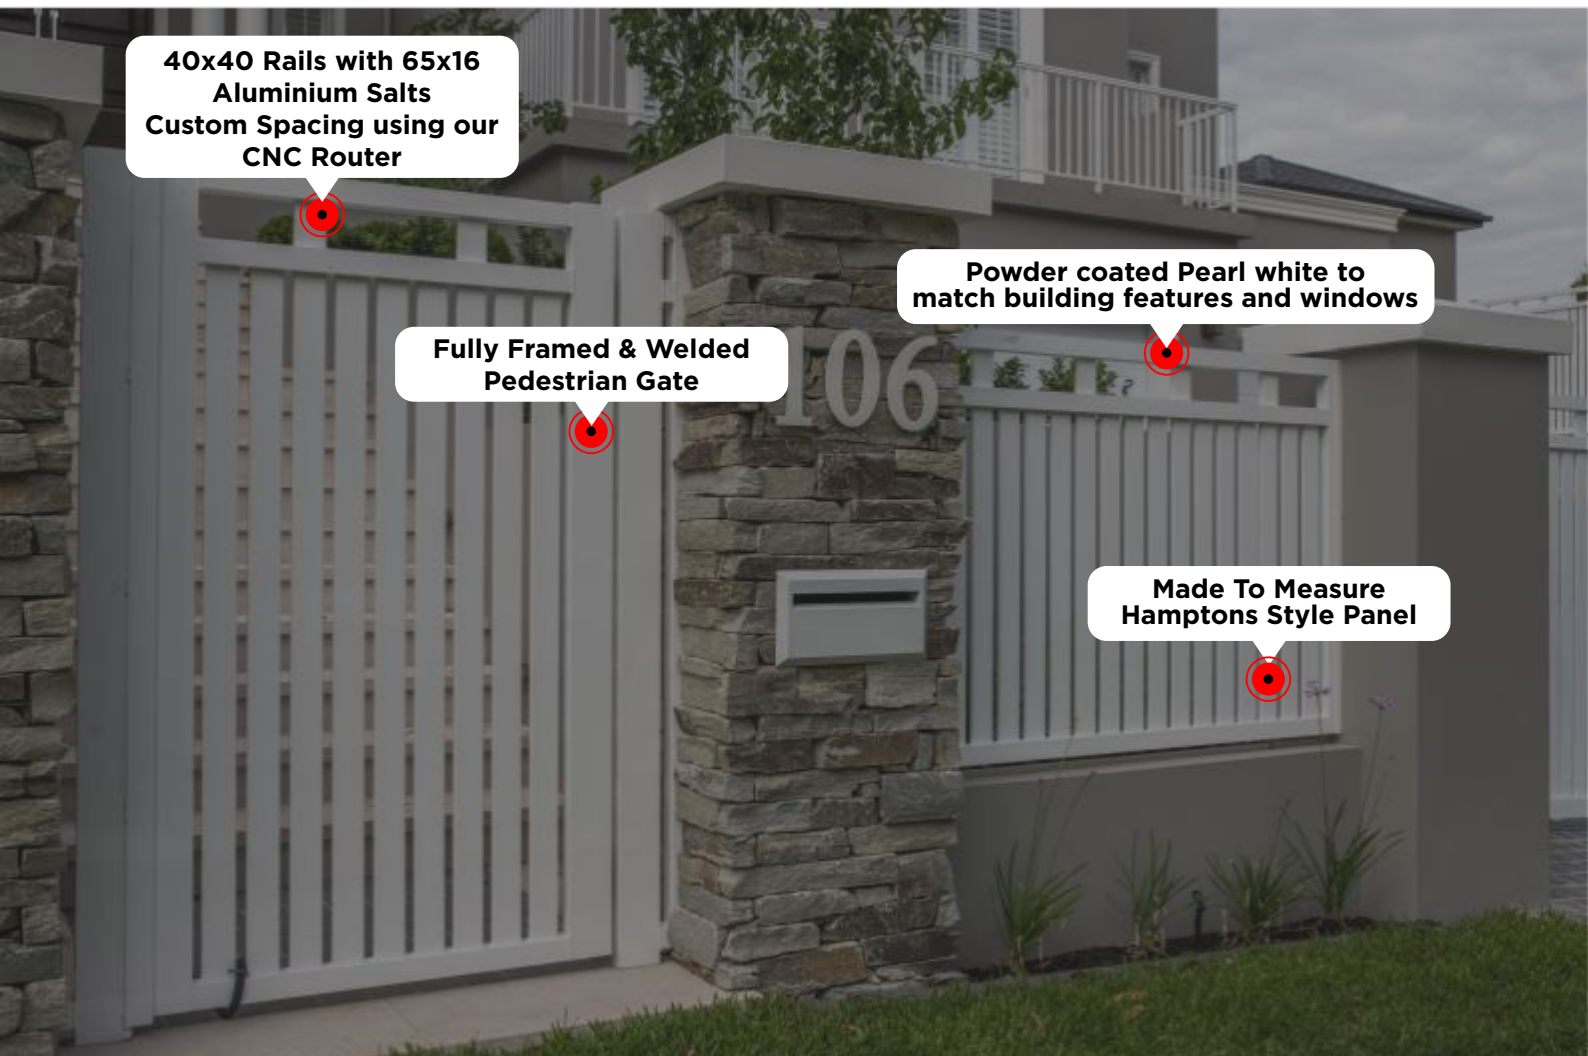

Our responsibility & Our Commitment

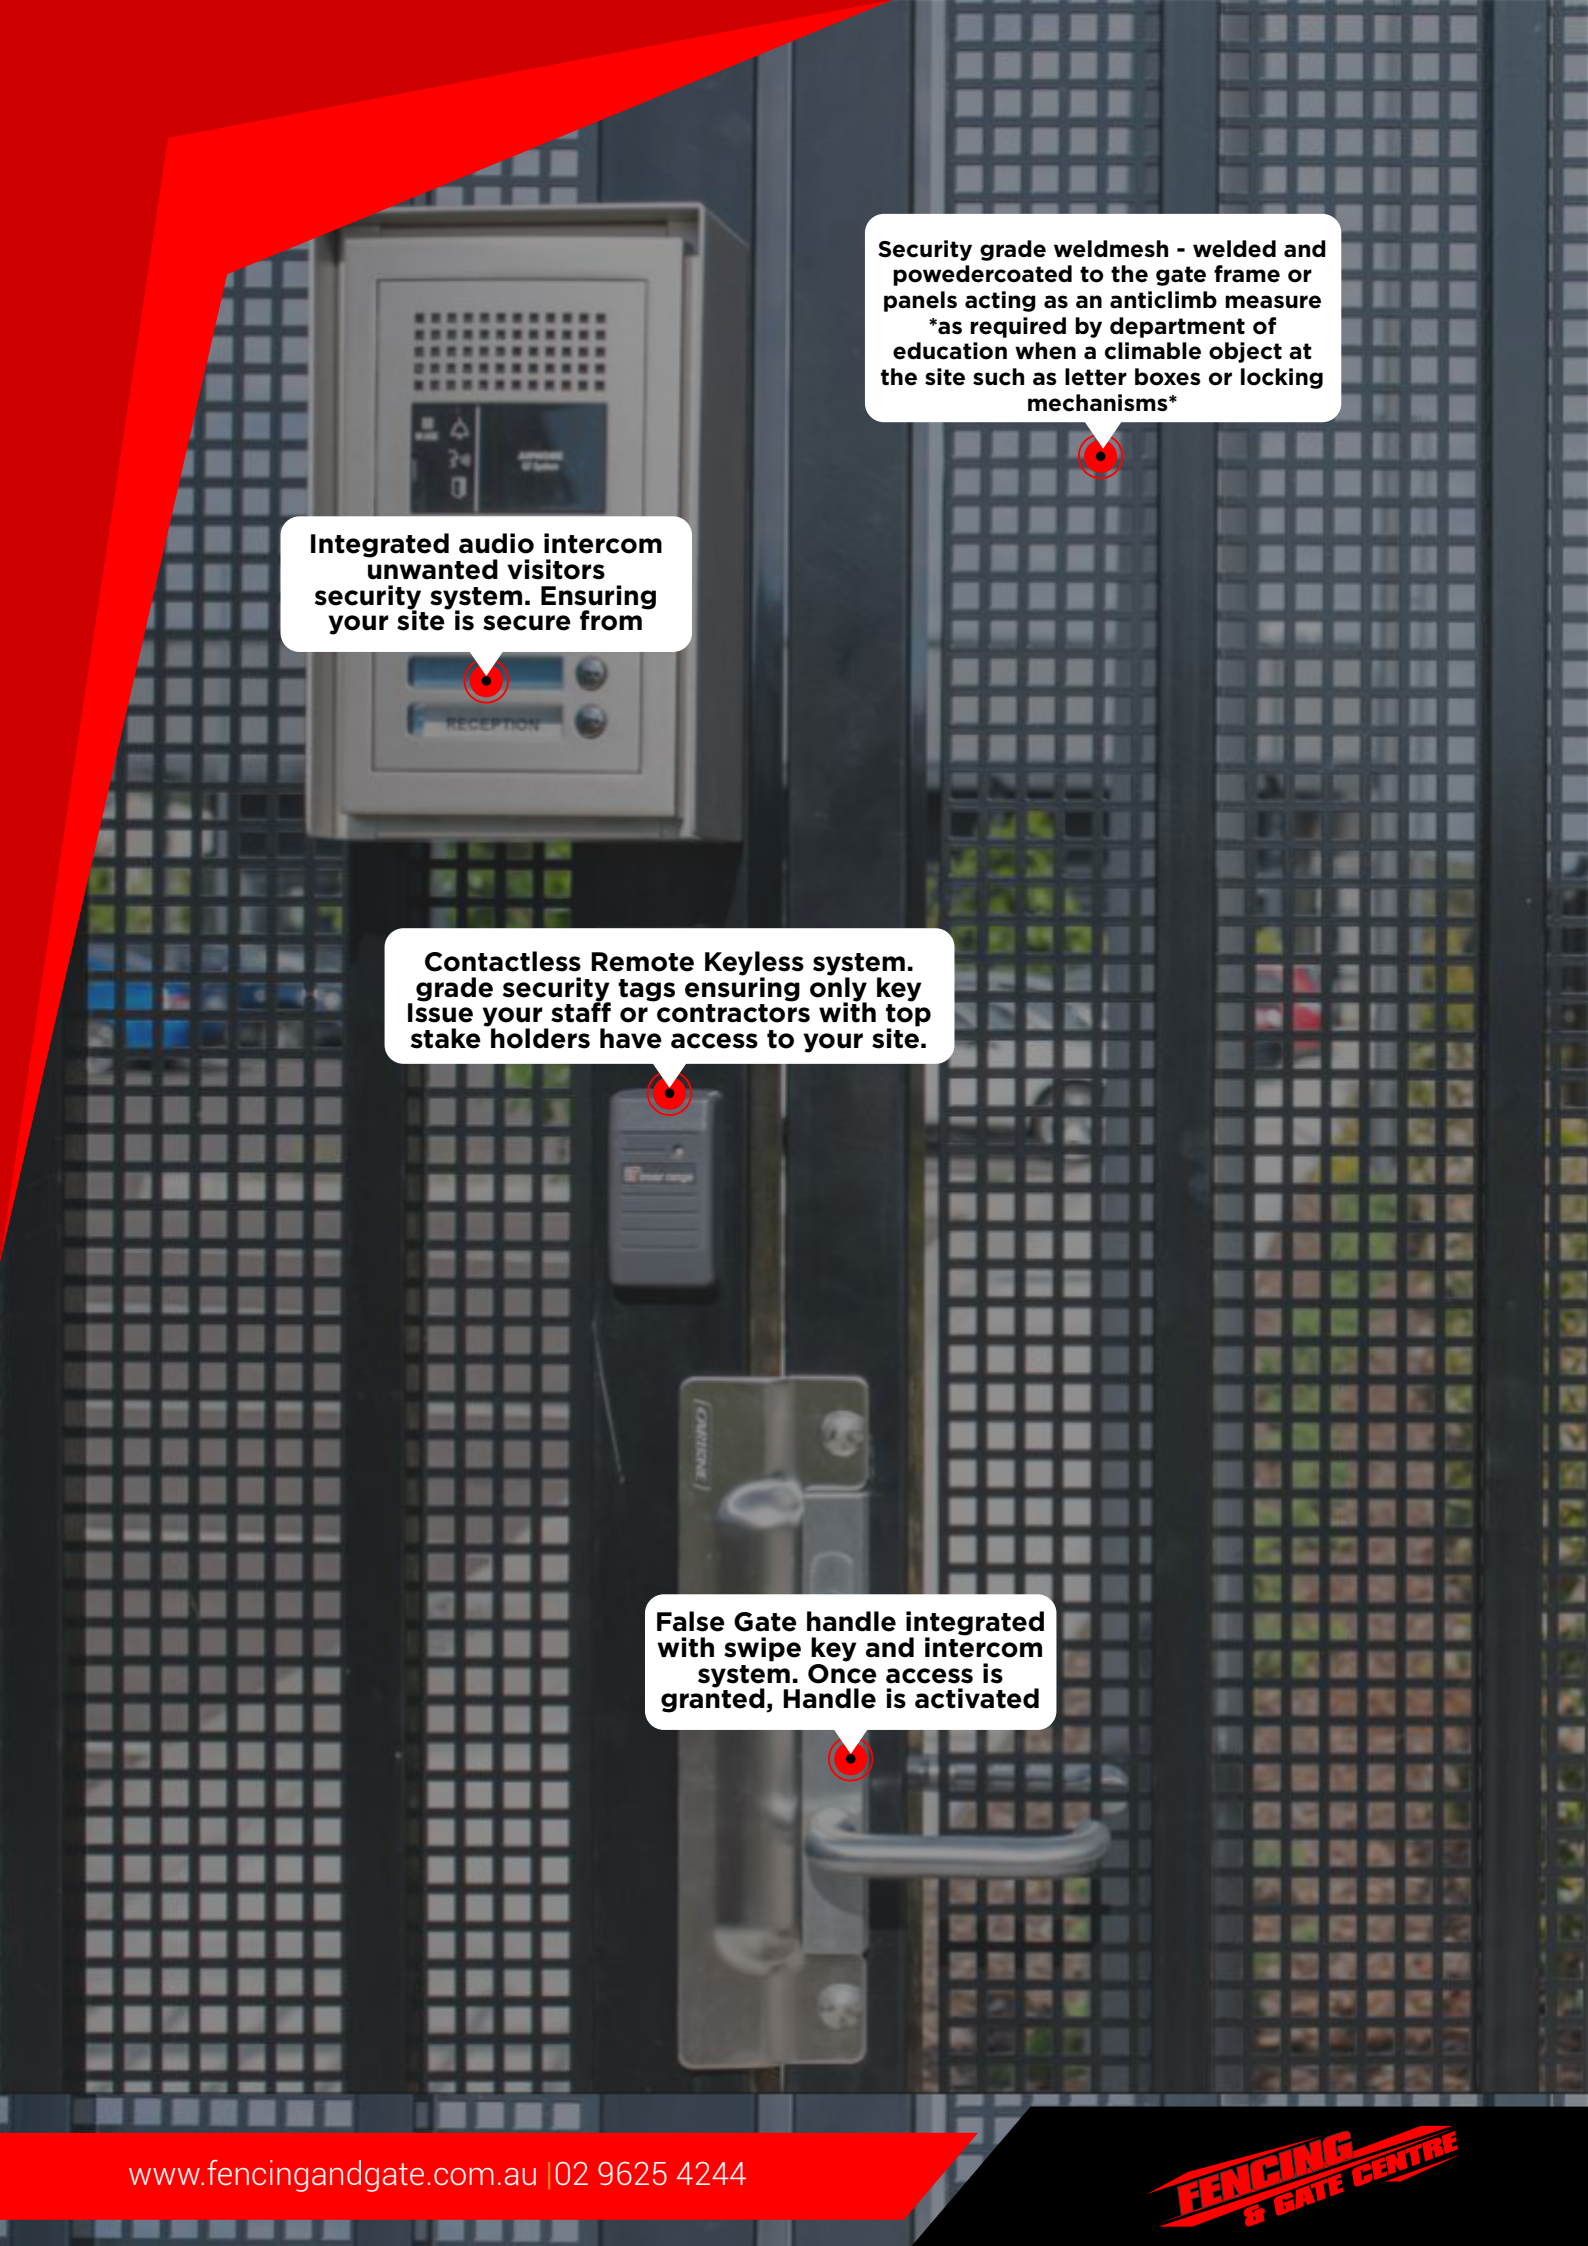

We have been around for a long time and we plan on being around even longer, to do that we have adapted a sustainable environmental goal which sees us recycle any excess or wasted material reducing our carbon footprint.

We are committed to providing long term solutions and building long lasting relationships for future projects. Whilst our competitors may offer a cheaper variation, our quality and commitment to your business, your project and the end user expectations is our key focus.

We are family owned & operated since 1995. We have branches in Sydney, Bathurst, ACT, South Coast & Silverdale – we take pride in providing jobs for fellow Australians and their families. This isn't just a fence to us, it's who we are.

Security grade weldmesh - welded and powdercoated to the gate frame or panels acting as an anticlimb measure
as required by department of education when a climable object at the site such as letter boxes or locking mechanisms

Integrated audio intercom unwanted visitors security system. Ensuring your site is secure from
